## santorini collection

*This soft, beautiful Smartstone surface features a subtle, random grey vein on a white background.*

 Premium Price Range

### Key Features

Slab size: 3050 x 1600mm  
Slab thickness + weight: 20mm (standard)  
Surface finish: Polished

Smartstone larger slabs offer greater design flexibility and real savings with lower per square metre rates.

### Practical Benefits of Smartstone

Smartstone surfaces offer the following properties of durability:

- Heat resistant
- Scratch resistant
- Stain resistant
- Chip resistant
- Chemical resistant
- Non porous
- Mould and mildew resistant

The background of the entire image is a close-up of Calacatta Blanco marble. It features a light cream or off-white base color, which is intricately veined with thin, irregular lines of light grey and beige. These veins vary in thickness and orientation, creating a complex, organic pattern that is characteristic of natural stone.

*Disclaimer: Smartstone is a natural product and therefore some variations in colour and pattern may occur. Small inclusions in the product such as small particles and blotches are within acceptable standards.*

The background of the entire image is a close-up of a marble surface with the Calacatta Manhattan pattern. This pattern is characterized by a light cream or off-white base color, overlaid with prominent, irregular veins of grey and dark grey. Some of these veins also contain small, scattered flecks of brown and gold, giving the stone a complex and organic appearance. The veins run in various directions, creating a dynamic and textured visual field.
